York about the selection of Cortelyou for national chairman. He did not consult the late Senator Quay or Senator Penrose of Pennsylvania, or any of the prominent Republican Senators from the New England States. The President has, however, notified the Republican leaders of New York that he wants Cortelyou elected a member of the National Committee from that State, to succeed George R. Sheldon, Republicans who are in a position to know said today that Senator Platt and Gov. Odell had notified the President that they would not consent to the selection of Cortelyou as a member of the National Committee.

The protests file with the President set forth that the Secretary, while legally a resident of New York, has actually lived in Washington so long that he is not in touch with the political situation in New York. It is also pointed out that he is not acquainted with the party leaders of New York, and has never had the political experience to fit himself for the duties of national chairman. Cortelyou may be made chairman of the National Committee without being a member of the committee.

DESPERATELY DEADLOCKED.

VAI EFFORTS AT SPRINGFIELD.

BY THE ASSOCIATED PRESS-P.M.

SPRINGFIELD (III.) June 22.—A desperate effort on the part of Republicans to break the deadlock in the State convention met today at 8 o'clock tonight the assemblage took a recess until 10 a.m. tomorrow.

The attempt to bring about the break was a spectacular one. Ex-Congressman W. L. Cannon, chairman of the Committee on Resolutions, and Chairman Cannon engineered the plan, which was made possible by the report of the Committee on Resolutions, which presented the resolution which it originated and which was referred to the committee yesterday's session.

This resolution was to the effect that the delegates be released from instructions, and when it was presented, Reeves called upon the candidates, one by one, to come before the convention and speak upon the question.

Each declared in favor of the resolution, speaking in the order named: Frank O. Lowden, Gov. Richard T. Yates, Charles Denslow, Atty.-Gen. Howard J. Hanmer, Lawrence Cannon, Congressman, Vespa- sion Warner and John H. Pierce.

Congressman Cannon demanded the attention of the convention and eloquently pleaded with the delegates to break the deadlock. He declared that the delegates must compromise and called attention to the fact that the convention by its inaction was injuring the Republican party, not only in Illinois, but in the entire nation.

"Let us adopt this resolution," he said, "and nominate a ticket and let's do it."

There was not a vote against the resolution, but when the roll was called for the sixty-seventh ballot there was no substantial change from the ballot of the previous day. On the next ballot, taken before the noon recess, a motion was made to adjourn the convention to July 1.

Speaker of the House, John H. Pierce, whose speech before the convention had made a good impression, and he received 52 votes.

When the convention reconvened for the afternoon session it was expected that from Yates to Lowden came and he got the vote of Speaker Cannon's district, as well as the votes of several other counties and some scattering delegates. For several ballots, his vote increased until he reached a total of 114. At the next tide turned and on the closing ballot, the seventy-eighth, his vote had dropped to 53%. It requires 75 to nominate.

Yates' lowest vote during the day was 362, and his closing vote was 406.

The other was no material change in the vote of the other candidates.

Many changes were predicted during the afternoon session, Lowden men started several demonstrations in efforts to stampede the convention, and they made a great noise. When Lowden began a demonstration and let down from the girders a great banner, bearing the quotation "Hold the fort."

Chairman Cannon ordered it taken down and a dozen hands tore it from its fastenings, and threw it back into the Mather court. Yates' delegation. A fight was prevented by the interference of the police. The banner, after its rescue by the Yates men, was hung up in the platform.

The Yates men started the demonstration again. W. J. Butler and other Hamlin men leaped upon the tables and tore the banner down. Yates men rescued it, and put it up back of the platform. Chairman Cannon made a statement, saying that Yates was not responsible for the incident and that he (Cannon) had ordered the banner taken down. Great confusion prevailed.

The last ballot tonight, the seventy-eighth, resulted Yates, 405; Lowden, 382; Denslow, 366; Hanmer, 109; War- ner, 22; Sherman, 45; Pierce, 24.

At 8:02 o'clock the convention took a recess until 10 o'clock tomorrow.

RELEASE OF DELEGATES.

BY THE ASSOCIATED PRESS-A.M.

SPRINGFIELD (III.) June 2—The Yates men held a meeting before the convention met, at which Gov. Yates released all delegates pledged to him.

The delegates, however, refused to be released, and the convention opened Lowden addressed the gathering releasing his delegates. Joseph P. Pierce spoke for a few minutes, releasing his delegates.

John Parker, originator of the resolution, made a speech after which Joseph G. Cannon, chairman of the convention, asked for five minutes, which was accorded him with cheers; Congressman Rodenberg taking the chair.

When Chairman Cannon had finished the previous question was moved and the ballot was taken.

HEARTS LAST STAND.

TEXAS, KENTUCKY, ILLINOIS.

BY DIRECT WIRE TO THE TIMES.

CHICAGO, June 2.—[Exclusive Dispatch.] Hearst is making his last stand in Texas, Kentucky and Illinois. There is nobody of sufficient wisdom in Chicago to prophesy what the outcome will be in Illinois.

Some time ago Hearst withdrew his workers from various States where he had intended to make fights in conventions. Word has now gone out that no more money will be distributed, and every man who has had to do with his political campaign, both here and elsewhere, with the exception of a few of his confidential men, is off the pay roll. He has cancelled most of the room reservations he had at St. Louis. The work he has been passed in Chicago that the barrel is empty.

This does not mean that Hearst has resigned himself to his fate as a beaten candidate. The men close to him say he still thinks he will be nominated at St. Louis. They gave up that idea long ago, however, made no public announcement of the fact, so long as their salaries came regularly.

Hopkins never for a moment entertained the idea of allowing Hearst to get this State, but he found as soon as he had completed an alliance and had caucused, that Hearst put an en-

tirely different construction on the combination and claimed everything in sight.

Hearst will be sandbagged in the State convention, but the job will be done as neatly as possible in order to keep Hearst's Chicago papers in line next fall.

CONFER WITH GORMAN.

CLOSED WITH MURPHY.

BY THE ASSOCIATED PRESS-P.M.

NEW YORK, June 2.—Senator Gorman of Maryland, Col. J. M. Guffy of Pennsylvania and Sergt. Cram, Cram representing Charles F. Murphy, are in conference today at the Holland House.

Ex-Lieut.-Gov. William Sheehan, one of the main supporters of Judge Parker, called at the Holland House and was with Col. Guffy for an hour. He would not talk with reporters.

Senator Gorman said in answer to inquiries that he had retired from politics.

PENROSE SUCCESSES QUAY.

WASHINGTON, June 2—Postmaster General Payne, acting chairman of the Republican National Committee, has appointed United States Senator Penrose of Pennsylvania a member of the committee to succeed Senator Quay.

In speaking of the appointment, acting Chairman Payne said it was perfectly natural that he should be now chosen in Senator Quay's mind. In fact, he said, Senator Quay, anticipating that his illness probably would prevent him, attending the convention some time ago, had delivered his proxy to his colleague in the Senate.

WASHINGTON.
**PACIFIC MAIL
CONTRACT.**

Slope Jobbers Seek to Have the Same Abrogated.

Uncle Sam Does Not Control Panama Railroad.

Investigator for Alaskans. Meyers Disappears.

BY DIRECT WIRE TO THE TIMES.]
WASHINGTON, June 2.—[Exclusive Dispatch.] The attention of Commissioner Grunsky of the Isthmian Canal Commission was called to-day to the report that Pacific Coast jobbers were sending Seth Mann to Washington to urge the commission to abrogate the contract existing between the Panama Railway and the Pacific Mail Steamship Company.

"The commission will be glad to hear what Mr. Mann has to say," said Commissioner Grunsky. "It will also invite the Pacific Mail to give a statement of its side of the case, and will not attempt to decide the matter until both sides have presented their cases."

"Nothing can be done in any event for some months, as the United States is not in control, and while the United States owns sixty-nine seventeenths of the stock, it is for the present a mere stockholder, and has no voice in the management of the railroad. It is probable that within the next few months the present directors will step aside, one by one, and elect canal commissioners directors in their stead. In due time, the commissioners will control the railway in behalf of the United States."

Arroyo Grande Postmaster's Salary.
WASHINGTON, June 2.—Willard H. Meyers, general bookkeeper of the banking department of the National Safe Deposit, Savings and Trust Company of this city, has disappeared. He is alleged to have misappropriated \$17,500. Meyers has been a trusted employee for twenty-three years.

Van Cort's Resignation.
WASHINGTON, June 2.—Postmaster-General Payne has received and accepted the resignation of Edward C. Van Cort, superintendent of delivery at the New York postoffice, to take effect May 31. The resignation is the direct result of the recent report of Assistant Attorney-General Robb on his investigation of the affairs of the New York post-office.

INVESTIGATOR FOR ALASKA.
PRESIDENT APPOINTS ONE.
BY DIRECT WIRE TO THE TIMES.]
WASHINGTON, June 2.—[Exclusive Dispatch.] Conditions have become so bad in Alaska that the President today decided to make a thorough investigation there to ascertain if the charges made against the courts and executive officers are warranted. This decision was arrived at during a conference between the President and Attorney-General Knox and Oscar Foote, who is a delegate to the National Republican Convention from Alaska. Immediately after the conference, it was announced that the President would appoint James S. Young, district attorney at Pittsburgh, as special agent of the Department of Justice to go to Alaska and make an investigation. He will enter upon the work immediately.

Charges of the most serious character have been lately filed against Judge Brown and Judge Wickersham of Alaska, and also against Gov. Brady. While the exact character of the charges are held in secret, it is known that they relate to indiscriminate appointment of receivers for mining claims. In the entire First Judicial District of Alaska, nearly every mining claim has been thrown into the hands of receivers and heavy costs imposed against the owners. An immense number of miners from San Francisco have joined in making protests to the Department of Justice about the matter. The charges have become so numerous that the President has become convinced that nothing but a thorough investigation, to be followed by a general house-cleaning, will answer for the case.

THEY WANT THE HOUSE.
DEMOCRATS GOING FOR IT.
BY DIRECT WIRE TO THE TIMES.]
WASHINGTON, June 2.—[Exclusive Dispatch.] Chairman Cowherd and his associates on the Democratic Congressional Committee, will this week open a campaign for election of a Democratic House in the Fifty-ninth Congress. Every one at committee headquarters in the Riggs House is enthusiastic over the prospects of overturning the Republican majority of twenty-four votes necessary to secure control of the next House.

There will be a meeting tomorrow of the Committee on Literature, when the principal speeches to be distributed in the campaign will be selected. The members of this committee are Chairman Cowherd, Senator Carmack of Tennessee, and Senator Culberson of Texas. Owing to the uncertainty of the stand to be taken by other important subjects, the Congressional Committee will go slow in laying down the plans of the campaign for the first month or so. Chairman Cowherd has no desire to run counter to the declarations of the St. Louis convention by adopting literature of a kind that will not harmonize with the party's platform. Consequently, the tariff literature that is to be distributed during the next six weeks will be of the mildest character.

Many leaders still feel shy about pressing tariff revision as a leading issue. They believe there is going to be a large overproduction which is going to cause more mills to close during the Presidential fight. In the course of a month this will add many thousands to the already large number of unemployed. Then, again, there are hundreds of Democratic capitalists who run mills, factories and other industrial enterprises, to whom the cry of extreme tariff revision does not appeal. Chairman Cowherd and his associates are giving careful consideration to all these facts, with the result that the tariff will be touched

on very lightly until the position of the party on the subject is clearly defined at the national convention.

It is likely that, in the meantime, the committee will confine its distribution of tariff literature to the speeches of John S. Williams. The latter is one of the moderate revisionists, believing that the protective tariff on trust-made articles should be lowered or repealed, and that suitable measures of protection be given to general industries.

PENSION AFTER MANY YEARS.

AND BACK PAY WITH IT.

BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, June 2.—[Exclusive Dispatch.] "I was at the Pension Office today," said Representative Vanner, "and had the satisfaction of seeing Commissioner Ware sign an order granting a pension to one of my constituents, whose claim has been pending for over thirty-four years."

The man lives in the Ozark Mountains, and put in a claim for a pension in December, 1869. It has been hanging fire ever since, until closed out today. A dozen different things served to delay it and prevent action. The man been looking after the claim since 1894, during which time the applicant was examined by half a dozen different boards. However, as he gets back pay for the entire period, it has paid him to wait. He receives \$4 a month for the period between 1869 and 1881; \$8 a month from 1889 to 1901, and \$16 a month from 1891 down to the present time."

WASHINGTON NOTES.

TWO THOUSAND NEW STEEL CARS ORDERED.

BY DIRECT WIRE TO THE TIMES;

PITTSBURGH, June 2.—[Exclusive Dispatch.] The Pressed Steel Car Company has ordered its entire McKee's Rocks plant started in full. This resulted from securing an order for 2000 high-capacity cars for the Harriman lines.

The Pressed Steel Car Company now has orders aggregating 4000 cars on its books. Of these the Seaboard Air Line ordered 500 box cars of 80,000 pounds capacity; the Chicago, Lake Shore and Eastern, 250 of 100,000

capacity, all steel, side dump gondolas; and the Illinois Central ordered 250 all steel of 100,000 capacity flat-bottom gondola cars. The rest of the orders are scattered among the other roads, principally from the West.

There has been dullness among the car builders, and the orders came as a blessing to the steel industry, which has been languishing. This will create a boom in steel plate, as most of the cars are made of plates pressed into shape.

The man lives in the Ozark Mountains, and put in a claim for a pension in December, 1869. It has been hanging fire ever since, until closed out today. A dozen different things served to delay it and prevent action.

The man been looking after the claim since 1894, during which time the applicant was examined by half a dozen different boards. A Good Watch

To the boy or girl just starting in life, a reliable time-keeper may make the difference between failure and a successful business career.

To be always "ON TIME" means a long step toward success.

Just now we are showing some special values in ladies' and gentlemen's watches—the kind that are RELIABLE.

FUTCH SAVES AN ENGINEER.

Wrests Montague from the Deadly Breakers.

Thrilling Episode of Lively Barbecue Day

Locomotive Brotherhood Will Resume Balloting.

But for the heroic action of W. E. Futch in saving his fellow locomotive engineer, E. A. Montague, from drowning, the otherwise highly successful barbecue of the Brotherhood of Locomotive Engineers at Playa del Rey, yesterday, would have been clouded with sorrow.

Hearing the shrill cry for help, Futch dashed from the sidewalk to the shore, disrobing as he went, plunged into the breakers and in swift strokes gained the sinking man. "Don't grab me or I will strike you," he said as he took hold of Montague's arm and struck out for the shore. Other men were advancing with a rope which, by the time it reached the struggling pair, had one hundred men attached to it. At a signal the long line hauled in, saving the drowning man and his life, save out of danger.

Montague was unconscious when taken from the water and carried to the bathhouse. Vigorous rubbing and pounding brought him about in short order. "What is the fuse about?" asked: "What has happened?" It was some time before he remembered. "Last night he was reported to be resting quietly.

The venturesome engineer is a very large man, weighed over 250 pounds. He had been swimming for more than two hours and gradually became exhausted without realizing it. It was about 4 o'clock when the accident happened. A stiff breeze had been blowing all day, the sea as high as a man's waist, and the breakers were unusually large. A huge roller caught the engineer and shot him to the bottom and before he regained the surface he had swallowed so much water that he lost his presence of mind and, in a panic, began thrashing about, flailing his arms in the air and shouting for help. With each cry the waves filled his mouth with water and he was all but gone when Futch who was talking with P. Kiduff on the board walk saw him and rushed to the rescue.

"Here, until my shoes! he shouted to an engineer as he threw down his coat and vest, and ripped off his shirt and undershirt. When he dove into the water he had nothing on but his drawers and when he got back to shore he was minus them. Friends attempted to put him on their shoulders and take him in triumphal march up the beach.

"Let me alone," shouted, breaking away and swimming down in the water. "I haven't done anything to make all this fuss about. All I want is a bath robe."

Last night at the Hollenbeck Hotel Futch, 35, is the president of the insurance branch of the brotherhood, was the hero of the hour and was overwhelmed with commendations and warm handshakes. It is said that the brotherhood will adopt resolutions acknowledging his heroism.

THE BARBECUE.

A real barbecue of beef, pork, lamb and fish on the sandy shore with baked beans and accessory fried things was an event which the Brotherhood of Locomotive Engineers will long remember. They ate and ate and smacked their lips over the savory viands and then they smoked and smoked, lying in knots about the beach, and filling the air with the perfume at the throat, narrow escapes and humorous incidents. After the "feed" was in some measure forgotten many of them went in swimming while others sauntered off to the dancing floor and the music of music. The pipe men stole away with fishing poles in their hands and dabbled for the finny tribe and not without success, while the youngsters of the order played leap frog or tried their skill at handball. It was a great day enjoyed by thousands of people going just to look on but somehow getting mixed in all the fun. The homeward journey swamped the cars and the rush was one of the fiercest ever seen at a Southern California beach.

TO BALLOT TODAY.

The convention will issue its session this morning at 9 o'clock and will at once take up the fight for a third assistant grand engineer. It was said about the corridors last night, that P. Kiduff is the favorite and will be chosen on the first ballot. This completed, the election of other grand officers will follow. The principal fight is to come over the position of first assistant grand engineer. Eli Stevens of this city is a well backed candidate for this position, which is to be held by C. A. Blake. The contest however will probably be between Stevens and J. C. Curry who is a most popular brother. It is not probable that there will be any change made in the position held by Benjamin Evans as grand guide or G. D. Doty as grand chaplain.

About the last thing which the convention will do before final adjournment will be to call a meeting place for two years hence.

The committee on place has reported a list of ten cities as in the running for the convention but it is thought that the choice will be between Cleveland and Memphis with Cleveland as the favorite. The headquarters of the brotherhood have been located in the Ohio city ever since the first union session was held there about forty years ago, but no convention has been held there since. A moment has been set on foot to have the biennial convention held in the same city all the time, the city to be near the middle of the United States, but the resolution was defeated by being laid on the table.

ORGAN INAUGURAL.

Large Audience Hears Rendition of Fine Programme in English Lutheran Church.

The inaugural organ recital at the First English Lutheran Church drew a very large audience last night, packing the church to its utmost.

A handsome new organ has been placed in the church to cost over \$2500, forming a harmonious and artistic feature of the beautiful interior of the church. The tone is rich and powerful or sweet and delicate, as may be desired and elicited many compliments last night.

The numbers on the programme were all executed with much taste and gave genuine pleasure to the large audience. The full programme follows:

Grand processional march from "Queen of Sheba" (Gounod); Miss G. A. Fletcher, soprano, (a) "Capriccio" (Lemaigne); (b) Imp. ovation.

(Jadassohn); Frank H. Colby, soprano solo, "The Good Shepherd" (Van de Water); Miss Ruth Ellinor, Tenor solo, "Romance" (Svensden); Alfred E. Walper, vocal solo, "Fear Not Ye, O Israel" (Dudley Buck); Miss Terilla Eisenbayer, reading, "Our Organ," Fanny E. Fletcher, baritone solo, F. W. Gates, serenade (Gounod); Miss Fletcher, contralto solo, "My God, My Father" (Marston); Miss Frankie, soprano solo, "Samson and Delilah" (Saint Saens); Miss Idica Eisenbayer, vocal duo, "Will You Go?" (Havens); Miss Verger and E. Walper, vocal solo, "These are They" from "Holy City" (Gaul); Miss Terilla Eisenbayer, grand offering in German; Soprano, Frank C. Cole.

Miss Fletcher is a pupil of Prof. Colby and shows aptitude for the pipe organ, as illustrated in her several pretty selections. Miss Verger and Miss Medlar are both young singers of great promise and were warmly complimented on their work last night. Miss Idica Eisenbayer, a well-known vocalist of this city, gave pleasure as usual. Little Fannie Fletcher, costumed as a dame of former ages, made a hit with her recital of the well-known poem, Alfred E. Walper shows much skill with the violin, and appears half-bred when taken to the concert, he would have proved that he touched the spot. Miss Idica Eisenbayer gave great pleasure with her cornet solo, which she rendered with excellent taste.

Fletcher, costumed as a dame of former ages, made a hit with her recital of the well-known poem, Alfred E. Walper shows much skill with the violin, and appears half-bred when taken to the concert, he would have proved that he touched the spot. Miss Idica Eisenbayer gave great pleasure with her cornet solo, which she rendered with excellent taste.

The programme was rendered in a manner worthy of commendation.

REALTY BOARD COMPLETES YEAR.

WILL MAKE EFFORT TO BRING CONVENTION HERE.

First Annual Report of President, Read Yesterday, Shows Realty Organization to be in Good Condition, With Much Work Already Accomplished.

The annual meeting and luncheon of the Los Angeles Realty Board was held at Levee yesterday and most able report on the condition of the organization was read by the president, Byron Erkenbrecher. His membership now numbers eighty, among them some of the leading real estate agents of the city; it has an income equal to its expenses, with a surplus in the treasury, and has won a place among the commercial organizations of the city.

Four vacancies on the Governing Committee were filled at the meeting by the reelection of George N. Black and the election of Leonard Merrill, A. E. Pomroy and Percy H. Clark.

The first annual report of the president opened with a review of the circumstances leading up to and the final organization of the Los Angeles Realty Board, the first meeting of which was attended by about fifty agents. Mr. Erkenbrecher spoke gratefully of the aid furnished the board in its beginning by the press of the city, and in summing up some of the accomplishments of the organization, and the results of its work.

"It has brought about a better feeling of good fellowship among its members, and a state of mutual consideration that justifies its existence; distrust, 'knocking' jealousy and other things of like character have been almost entirely eradicated from among our members, and this certainly has been to our great benefit and makes it much easier to do business among ourselves and there is no doubt but that agents outside of the board feel the effects of our efforts to join us."

The board, after considerable debate by one of its committees, is now able to obtain almost instant information as to the record ownership of property right up to date. This is certainly a great service to the members, and also very valuable. We have also created quite an improvement in regard to the divers map and transfer systems which are supplied to a majority belonging to the board.

"An appraisal committee was formed, and while the appraisals are not very numerous they have been, though, very satisfactory to the parties desiring same, and we are constantly giving attention to this important feature of the board's work in every possible quarter where it might do good, such as in the appraisal of property in the institutions, the courts, and persons who might require such a committee and the demands for committee services are increasing steadily.

"A schedule of commissions was drawn up and approved, and is now displayed in the office of our members, which is of great value in preventing misunderstandings and settling disputes, and the certificate of membership which hangs in our office has been found to inspire confidence in strangers and new clients.

EVENTS IN SOCIETY.

IN SANTA BARBARA, at noon yesterday, Miss Anita Page Kelly, niece of Louis Givernaud, of New York, who recently received \$25,000 damages from the Potter Hotel Company for damages in an elevator accident last year, became the bride of Wm. J. Variel, the attorney who helped conduct her suit, before the United States court in this city. The wedding was a quiet one only intimate friends being present. The ceremony, which took place at the home which Mr. Givernaud has occupied this season, was performed by Rev. Mr. Stoecklin. Charles Givernaud, the bride's brother-in-law, acted as best man and Mrs. Charles Givernaud as matron of honor.

The other guests were Mr. and Mrs. Harrow, Mr. and Mrs. Clarence Varies, Robert Varies, Florence Varies, Mrs. Adams, Thomas Keefe, Mrs. and Miss Eaton, Mrs. Russell, Professor and Mrs. Bobrick, Marie and Arthur Bobrick. Mr. and Mrs. Varies left soon after the ceremony for an extended European trip.

Informal Tea.

Wednesday afternoon Mrs. Cosmo Morgan of West Twenty-fourth street, entertained with an informal tea in honor of Mrs. John P. Jones of Santa Monica. The affair was most informal, and the house was prettily decorated with cut flowers and ferns. There were about thirty guests present.

Japanese Tea.

Wednesday afternoon Mrs. Cosmo Morgan of West Twenty-fourth street, entertained with an informal tea in honor of Mrs. John P. Jones of Santa Monica. The affair was most informal, and the house was prettily decorated with cut flowers and ferns. There were about thirty guests present.

The women who are interested in building the church for Dr. J. S. Thomson are planning a tea to be given this afternoon at the home of Mr. J. V. Wickson, No. 421 West Twenty-eighth street. Elaborate preparations have been made and the ladies hope to swell the fund considerably so that they may soon be able to have a new home for the people of the Indianola Church of Christ. This is taking great interest in the event and it promises to be a success from both a financial and a "good time" standpoint. The younger set especially are interested as there is to be a tea at the present which will draw to eager young ears all sorts of future tea affairs, and good things of which they never dreamed. Mrs. S. A. Kendall and Mrs. L. W. Blinn are in general charge of the affair. The Japanese tea garden which will be an inviting place with pretty girls flying here and there waiting on all comers, is to be in charge of the Misses Maybelle Kendall and Vickers, assisted by Mrs. George Goldwin, Mrs. Tom Otto, Mrs. Little and the Misses Suze Carpenter, Edith Maurice, Kitte Walbridge, Alice Gwynne, Daisy Kendall, Evelyn Prewitt, Lelia Simonds, and Zoe Harrison. There will be all sorts of pretty things for sale and the beautiful gardens, trees and beneath with Japanese lanterns and beneath varicolored umbrellas, one may sitter or lemonade, according to taste, and be waited upon by the prettiest maid in dainty frocks with large picture hats.

Lounsbury-Baxter.

Last evening at the Woman's Clubhouse occurred the nuptials of Miss Josephine Lounsbury and Charles Russell Baxter, Jr., Rev. Dr. Warren F. Day, performing the ceremony. An overture by the "Hearts of Flowers" and the wedding march from "Lohengrin" being given. Miss Lounsbury, who is a pretty girl, wore a handsome gown of Brussels net, and her hair was caught up with orange blossoms. She carried a white bouquet, which was a "suburb of diamonds and sapphires," the gift of the groom. Little Helen Dominguez was the attendant flower. She wore a dainty frock of pink and carried a pink sweet pea. The couple were married in a room of Maman Couchet roses and ferns, and about the rooms the flowers were used in profusion. After the service a supper was served at the home of the bride's mother, Mrs. Josephine Lounsbury. Here the decorations were particularly pretty, carnations being used shading from deepest red to most delicate pink. These were used in the table decorations, and places were marked with red and white ornaments with gold and white. The couple left for a short wedding trip soon after the service, and on their return will make their home at No. 517 West First street, which is the bride's mother's home. The bride's mother expects to go East immediately, and the couple will occupy it until the completion of their little bungalow at Hollywood.

Musical Evening.

Miss Florence Heavenstone gave an evening of music at her residence, No. 1262 West Twenty-fourth street, for a number of friends. The music was given by Mrs. E. Castillo, Miss Nicols, Mrs. Standish, Mrs. E. Hardin, Mr. Castillo, and Mr. Leonard. A musical programme was rendered and after that refreshments were served to the guests who numbered about thirty.

Quiet Wedding.

Yesterday morning at 7 o'clock at No. 125 Merchant street, Miss Eloise Leing became the bride of Claude Leroy Ford, Rev. W. A. Knighton performing the ceremony. The bride wore a soft white gown and carried white carnations. There were guests, mother and relatives present, and immediately after the ceremony a breakfast was served, after which the newly-married couple left for a two weeks' honeymoon. Upon their return they will make their home in this city.

Pretty Musicals.

Yesterday afternoon Miss Lily Olhausen of No. 1506 St. Andrew's place, assisted by her mother, Mrs. G. Olhausen, gave a delightful musical entertainment in the parlors of the Misses O'Donnoughue and Winstons. Those who were Misses O'Donnoughue, McNeil, Eliza Gardner, Dickinson, Wrasse, and Mrs. McNeil, Bailey. The house was decorated with cut flowers and ferns, and refreshments were served after the music, which was most delightful.

Utopian Whist Club.

Miss Florence Marment of No. 1227 West Tenth street entertained the members of the Utopian Whist Club at a charming luncheon given at the Country Club. Sweet peas were everywhere. There was no cloth on the table, but over the board were scattered many sweet peas and alightning. There were numerous butterflies, of all colors and hues, and places were marked by the bright-winged creatures.

There were Mrs. Alexander Chandler, Mrs. W. W. W., Mrs. Addison Lyle, Mrs. Walter Lyle, Mrs. J. C. McNeish, Miss Jessie MacFarland, Constance Britt, Lucy Stanton, Helen Bushnell, Ethel Graham, Lena Reed, Kitty McCormick, Barbara Chrisman and Edna Chrisman.

Mrs. Hutton Entertains.

Yesterday afternoon Mrs. A. W. Hutton of No. 1215 South Main street entertained the members of Robert E. Lee Chapter at the last meeting before the height of the season. It was a most delightful affair, when these charming Southern women gathered together amid soft music and many delicious refreshments. All through the house roses were arranged in great bowls and high vases. On the porch, which was enclosed, were many potted plants and De Nubila's

"TIMES" SELECT PARTY.

IDEAL EXCURSION TO GRAND CANYON, WORLD'S FAIR, NEW YORK, DOWN SOUTH, AND TO MEXICO.

These are the first lines published concerning the project which The Times management has been preparing for a grand tour of the continent, stopping at the World's Fair in St. Louis and Maywood. The trips will be arranged in great bowls and high vases. On the porch, which was enclosed, were many potted plants and De Nubila's

The Great Sale Continues

\$40,000 Surplus Stocks of Robert Wicks & Co., Utica, N.Y., and B. Rothschild & Co., Rochester

Never before were we so well equipped for a big season's business as now—never was a campaign for increased patronage more carefully planned—and our immense surplus purchases came in just when we started to reconstruct our windows. The inability to properly display the goods—carpenters and other workmen being in the way—has caused these enormous stocks to be sacrificed, and just at a time when you want clothing of the right sort. THERE'S SAVINGS HERE FOR YOU AND THEY'LL RUN FROM 30 to 50 PER CENT—doesn't that interest you?

Suits Worth \$15.00 for \$7.50

Clothes that are made as carefully as the best custom-tailored suits—they're as carefully finished inside as out, and there's not a suit in the lot that you would not be willing to pay \$15 for, the price they were made to sell at. There's fancy mixed effects in the neat gray colorings, and there's the new green shadings in neat tweeds. These suits have Princess serge linings, and at \$7.50 are the best values ever brought to your notice.

Blue or Black Cheviot Suits \$15

Ordinarily you would pay \$25 for a suit like any of these—single or double breasted styles in blues and blacks that will hold the solid colors until the last thread is worn out. The coats have fronts that will hold the right hang, and every stitch has gone into these suits carefully, to make them perfect—and they are.

Men's Shirts 66c

Regular \$1 and \$1.25 values

Soft bosom, Golf and Fancy Dress styles—all the new summer colorings, including the popular blue and gun-metal effects. Fine percales, Oxfords and fancy shirtings. All sizes—and all marked during this sale at 66c.

Fancy Vests \$1.95

Worth \$3, \$4 and \$5

The most seasonable garments that you can secure—light and dark colorings in the best styles for summer wear. Fancy figured, dotted and checked patterns in fine vestings—just what you want for warm weather semi-dress—sale price \$1.95.

Underwear 25c

Worth 50c and 75c

Fine Derby Ribbed Underwear in pink, black, ecru, blue and brown. The garments all have silk finished seams, pearl buttons and silk ribbon bindings—there are all sizes in shirts and drawers and they come in the highly desirable Summer weight—each garment 25c.

Our employees share on profits—The Hub was the first store on the Pacific coast to adopt the co-operative policy of sharing profits with its employees. When you come here you are served by a salesman who is a partner in the business—your advantage lies in the fact that it is to his interest to serve you well—to make you a permanent customer.

One block from the Hub is the site selected for the new post office. This store occupies an entire block, and is accessible from any car line on which you may ride down town. While the work of making extensive improvements in our windows is in progress, we are deprived of—but chance to show goods—but our great values will make your visit doubly important.

WOMEN'S CLUBS.

UNIQUE TOKEN.

The California Badger Club as close to the year's work gave a handsome luncheon yesterday at Hotel Leighton to which about fifty members sat down, and which proved to be a love feast, when all the toasts had been drunk and all the clever things said by the bright women who compose this California Badgerin.

The luncheon was served in the large dining room with the soft green hangings forming an artistic background for the flower-decked tables and the handsomely-gowned women. Sweet peas and feather green adorned the tables. Purple flowers and even the violet-hued larkspur mingled with bright yellow blossoms.

FOR EXCHANGE—

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Two Banquets.

Delta Chapter of the Phi Rho Sig. fraternity, College of Medicine, U.S.C., entertained forty of its members at a banquet in Levy's upper room last night. Dr. O. O. Witter was presided. Architects and engineers, the number of fourteen, also feasted at this restaurateur's. Julius Kraus presiding. Victims of Tallyho Accident.

Dr. D. C. Barber, superintendent of the County Hospital, who was seriously hurt in the tallyho accident on Memorial day, was able to get about again yesterday. The fractured ribs still give him much pain, and make it difficult for him to move about. Mrs. Barber, son of whom the ankle was fractured, is still confined to her bed.

More Water Troughs Needed.

The need of more public watering troughs has been apparent the past few days. The watering place at the old Plaza has been out of fix for several days, and teamsters have found difficulty in getting water for their animals. It is for this reason persons drive blocks out of their way to advantage of this watering trough, and the establishment of others through the center of the city would be welcomed by drivers of horses.

Art Exhibit.

The permanent art exhibit of the Art Association, which has been closed since its removal from the Hill street building, to the new school building, corner of Alvarado and Sixth streets, has been arranged and will be open to the public to the end of July. Both the Second street and the Seventh street cars pass the door of the new building. There is also an exhibit of the work of students and amateurs in the same building.

Car Victims.

Mrs. Nelly Sanderson of No. 834½ Main street, and Dick Baumer, who lives on Alpine street, were victims of the street car yesterday. Baumer was riding on his bicycle on Buena Vista street early yesterday morning, when the wheel slipped and he was thrown against the car fracturing his right arm. Mrs. Sanderson was run over by the streetcar starting a car, from which she was trying to step at Fourth and Spring streets.

Curglers Burying.

The daily burglar varied the monotony yesterday with harnesses. To the police yesterday were reported losses of harnesses at the Citizens' Transfer Company, No. 317 East Second street, and at the Express Laundry Company, corner Los Angeles and Winston streets. Henry Stove reported the loss of a stock saddle from his corral on Ramirez street. Burglars entered the house of O. H. Ladd, at No. 215½ East Second street, early yesterday morning, taking \$65 belonging to Laddies and \$77.50 belonging to A. E. Wimana.

New Pipe Experiment.

A number of experimental sections of concrete water pipe, fortified for high-pressure siphons, with steel rods embedded in the material, were tested yesterday in the yards of the maker, Contractor C. Leonard, the president of the China Company, Newell, of the United States Reclamation Service; Arthur P. Davis, supervising engineer; Attorney Morris Ben and Consulting Engineers Sanders. The concrete and steel piping was made by Contractor Leonard at the request of the officials of the reclamation experiments who have been working on this city with the thought of using this piping in canal work over depressions. The result of the test was unsatisfactory. Comment of American can manufacture was used.

Two Cars Burned.

Falling to slow down at the crossing of Fourth and Cummings street near Hollenbeck, on Boyle Heights, the conductor of car No. 145 of the Los Angeles Traction Company ran into the rear open end of a traction car No. 168 yesterday afternoon at 5:45 o'clock, smashing in the ends of both cars and injuring Motorman Wilcox of the traction line. The green car had the right of way and made the turning as the bus had bounded off the track by the over-anxious conductor. One of the passengers on the attacking car had his neck cut with glass from the shattered window panes and a woman was slightly bruised. They were not so badly hurt that it was necessary to take them to the hospital. Motorman Wilcox's shoulder was wounded and he will be unable to work for a few days.

Bell Will go Back.

The Pico Heights Church bell which had been removed from the congregation house of the Methodists and the Catholics, will be taken back by the Methodists to repose in the Catholic belfry, and will be used to ring the matins next Sunday morning. At a meeting of the official board of the Methodist Church last night, it was decided to repossess the Methodists had had on the bell, in the interests of peace and harmony in the community, and it will be replaced in the tower of the building by the Catholics today. The pastor, Rev. H. W. White, in speaking of the decision, said: "We have returned the bell because the parishioners of the building under whose roof they had secured it with the building, and, granting that we have been correctly advised when that we were entitled to its possession, the enforcement of our legal right would have resulted in a bitterness far greater than the loss of the bell. If the spirit of brotherhood is to reign in the world, the church of Jesus Christ in all its branches must be the first to lead the way, and warfare between religious bodies is far more detestable than the name that His sacred name could not be other than detrimental to the very cause they seek to advance. Our action may be misunderstood by some, but those who know the facts will honor the official board for the brotherly spirit shown."

BREVITIES.

Subscribers to The Times are offered a \$7.50 Columbia graphophone at cost of freight, handling, etc., to wit \$1.25, we will include the cost of your own selection. The price of gold-colored records under this arrangement is 25 cents each; (former charge 50 cents each.) The machine can be heard to play at The Times office, where it is on exhibition daily. The place will be explained fully to anyone calling at The Times' Graphophone Department.

Why not have the best; it may cost a trifle more. Our work speaks for itself—a first-class, well executed photograph by Schumacher, 107 North Spring street. Don't fail to secure a sitting at the world-renowned studio while you have an opportunity. Phone for appointment.

Dr. Fritchard has just issued a pamphlet on orthopedic surgery and treated at length of the direct application and cure of chronic diseases. Mailed free or call 500½ S. Broadway.

The Hotel Roslyn Café, 432 South Main street, serves the best 50 cent dinners, 5 to 8 p.m., short orders all day. Hart Bros., proprietors.

Last of series of demonstration lectures by Miss Farmer at Y.W.C.A. 3 p.m., today, subject, "Desserts—Hot, Cold and Frozen."

Maud A. Rushmore, shirt waists and shirt-waist suits. Silver City, corner Sixth and Olive sts. Phone Home 6765. The San Francisco office of The Times is located in room 10, Chronicle Building. Telephone Red 5398. Phillips, tailor, moved to 319 S. Hill.

SATURDAY'S SALE OF

Shirt Waist Suiting Silks

AT 75c YD.

These Are Actually \$1.00 and \$1.25 Values

Tomorrow morning we will place on sale upwards of 2000 yards of
novelty silks that will create a sensation in circles where silk values
are known.

They are all new goods—just arrived; styles that have never been
shown before in this town. There are LOUISINES and TAFFETAS
BARATHEAS and ARMURE weaves in all the late Summer colors and
mixtures. Modes, Tang, Greens, Lavenders, Browns, Gun-metals, Blues,
and Black and White are the favorites. They are mixed with white,
black and all the various colors; many changeable effects are shown in
the fancy weaves. There is positively not a single unworthy style in the
entire lot, coloring, quality and style all considered. It's the first opportunity
you've had this season to get a really good silk so near HALF
PRICE. They are easily worth a dollar and a half—twenty-five. Some
of them are shown in the Spring Street windows today:

Your Choice Tomorrow (Saturday)

For 75c A Yard

Special Underwear Sale Monday

Next Monday will mark the beginning of our ANNUAL MID-SUMMER
SALE of.....

Fine Undermuslins

It will be a sale worth your while to attend. There will be muslin
undergarments of the finer, the better sorts, at prices that will com-
mand attention. Particulars will be given in Sunday's papers.

Do you intend taking advantage of the Birkel
Co.'s liberal offer to supply piano instruction
free, in your own home, for a year—by merely
purchasing a piano? If so, you haven't any time
to spare. Applications are coming in rapidly
—and the class is limited to fifty members.

TERMS—\$10 DOWN, \$2 A WEEK

If your preference is for a Richmond or a
Brinkerhoff; or \$12.50 down and \$2.50 a week,
if you select a Starr or Haddorff.

Brinkerhoff Pianos, as you probably know,
were chosen by the Los Angeles Public Schools
—on account of their superior musical qual-
ities.

Why not come in today—let us show you the in-
strument, and give you prices and further particulars?
You may never have a like opportunity, after this offer
is withdrawn.

Geo. J. Birkel Co.
Steinway and Cecilian Dealers,
345-347 South Spring Street

For Piano Buyers.

WE BUY FOR CASH, thereby taking advantage of all dis-
counts and reducing the cost of the pianos. The manufac-
turers would rather sell for cash on close margin than to dou-
ble their profit on consignment sales to dealers.

WE SELL ON TIME and tax only an honest profit above
the cost of our pianos. We are known as the "originators of small
profits in Pianos".

530-532-534 SO. SPRING ST.

UNION DEPOT
IS IN SIGHT.

Work to be Commenced by
First of Next Year.

Definite Statement by Supt.
R. H. Ingram.

Station to be Used by S. P.
and Salt Lake.

R. H. Ingram, superintendent of the
Southern Pacific, said yesterday: "We
hope to begin work on the union
depot early next year at the Arcade
site. We have procured our last foot
of frontage on Central Avenue and
things are shaping themselves for the
beginning."

This direct statement clears up the
mooted question as to where the pro-
jected union depot is to be built and
when it may be expected that work
will begin. Whether the Santa Fe
Railroad will be a party to the
contract or not is still a well covered
fact, but officials of the San Pedro,
Los Angeles and Salt Lake Railroad
admit that "some of the trains will
be run into the depot to be built on
the present site of the Arcade station."

"We have 350 feet on each side of
Fifth street," continued Superintendent
Ingram, "but the full details
have not yet been planned, and that
is about all I can say about the
proposition."

"Will all the roads enter into the
scheme?" was asked.

"No, the depot is to be built by the
Southern Pacific and on Southern
Pacific ground," he answered sig-
nificantly.

"Then why do you speak of it as a
union depot?"

"Why, it will be a union depot for
our various lines."

"Our union depot" is taken to in-
clude the Salt Lake road and such
was the opinion expressed yesterday
by a prominent officer of the Santa
Fe. "Notwithstanding the denial of
officers of the Salt Lake road," he
said, "there can be no question that
the Salt Lake is considered, and
the new depot to be constructed by
Harriman, and the union depot, which
is to be built will be used for the
trains of those two systems. As far
as I know, the Santa Fe will not be
a party to the contract. Of course
the matter has not been discussed, but
it has always been in the air. The
union depot would be a necessity for
us if our railroad did not have all the
room it needs, but the Santa Fe has
more than enough and will expand
where it is. It will not be very long
until the Santa Fe will be in a position
to have freight houses across the street
from our present freight house, one to
be used for outgoing freight and the
other for incoming."

"But would it not greatly facilitate
your through business to land the very road
in your own station in connection with the
Southern Pacific?"

"It might but there is no money in
it not necessary. The Santa Fe and the
Southern Pacific each spend about
\$150 a month for the transfer of
through baggage from one depot to
the other. That is all, while the in-
terest on a union depot would be
something enormous."

An officer of the Salt Lake road
when interviewed said: "It is highly
probable that some of the trains will not
all of the Salt Lake road will be
run into the Arcade Depot, but the
matter is still a little in the air. There
is still some right-of-way to be pur-
chased. The union depot unquestion-
ably would greatly facilitate the
business of the railroad companies, but
on the other hand, we do not believe
that it would help the city much."

There are hundreds of people who pass
through Los Angeles on their way
north, who if they could stop off one
train and enter another would never
see anything of the city; but when
they have to drive from one depot to
another, many of them decide that
they may as well stay over a day as
not."

EDITH SHORB
SOON TO MARRY.

PUBLIC SERVICE—OFFICIAL DOINGS.

SUMMARY OF THE DAY.

Enjoined by the courts from enforcing a prohibitive boxing ordinance, the Council Committee on Legislation will this morning consider ordinances fixing a high license on boxing exhibitions and restricting them to a small territory in the business district of the city.

Protest has been made to the Council by citizens just west of Park that their religious services have been seriously disturbed by the noise and rowdyism attendant on the Sunday orgies at the Jester carnival.

The Sewer Committee of the Council will recommend that the \$50,000 check deposited with the City Clerk by N. W. Stowell as a guarantee of his outfit sewer proposal be returned to the sender.

H. Thomas Jones Bateman was again held to answer the bigamy charge by Justice Pierce yesterday. The case is the same as before—that of marrying Catherine Quin, he being already a much-married man.

Allen Marley is suing G. W. Stimson and E. Melville for \$30,000 damages, alleging that they are responsible for his having hidden his bicycle into a trench dug on their property.

AT THE CITY HALL.
HIGH LICENSE
FOR BOXERS.

Enjoined by the Courts from Enforcing a Prohibitive Boxing Ordinance the Council Will Try a Heavy Tax and Prohibited Territory.

Enjoined by Judge Smith's recent decision from prohibiting boxing exhibitions, the City Council will attempt to devise a plan for distributing these exhibitions that will make them as unobjectionable as possible.

Judge Smith ruled that the city has not the right to forbid what the State Legislature has sanctioned. But the State delegates to City Councils the right to regulate and license boxing exhibitions. This morning the Legislation Committee will consider at open session how this right can be exercised to the best advantage. The question of high license will also be discussed.

Application has been made by the Crown Hill Improvement Association for an ordinance fixing a high license on prohibit boxing exhibitions in the big pavilion at the west end of the Third-street tunnel. That this application will be granted is conceded even by the representatives of the local athletic clubs. The sporting element will be told by the Council will not include Hazard's Pavilion in the prohibited district.

Claim is made that the boxing statute adopted by the last State Legislature was drawn for the purpose of legalizing boxing exhibitions, "this law was amended from time to time."

"Any person who within this State engages in, instigates, aids, encourages, or does any act to further a contention or fight, without weapons, between two or more persons, or a fight commonly called a ring or prize fight, either within or without the State, who engages in a public or private sparring exhibition, with or without gloves, within the State, or who sends or publishes a challenge or acceptance of a challenge, or fight, carries on or directs such a challenge or acceptance, or transmits any person in training or preparing for such a contention, exhibition or fight, shall be guilty of a felony, and upon conviction shall be fined not less than \$100 or more than \$500, and be imprisoned in the State Prison for not more than one year or more than three years; provided, however, that sparring exhibitions, not to exceed a limited number of rounds with gloves of not less than five ounces each in weight shall be held at an incorporated club upon the payment by the club of an annual license to be fixed by the Board of Supervisors of cities and counties, or the City Council or other governing bodies of incorporated cities."

Cities and towns shall prescribe by ordinance: provided, further, that the boxers prior to each exhibition must be examined by a physician, who shall determine whether or not they are in a fit physical condition.

City Attorney Mathews last night said that, in his opinion, the city has the right to establish a prohibitive district. Acting on this advice, the Committee on Legislation will seek to have the ordinance which will be the agent of the district in which boxing exhibitions shall be permitted.

It has been suggested that it be restricted to the Third-street tunnel. It is conceded that no attempt will be made to cut out Hazard's Pavilion, but the Third-street tunnel will not be included.

A director of the club that holds the lease on the Third-street Pavilion told yesterday that his club was arranging to give exhibitions at Hazard's Pavilion until a more friendly Council was seated.

"What can you expect from a bunch that's on the water wagon, anyhow?" he exclaimed in a tone of deep disgust.

This reference to the water wagon showed that the sporting element was aware that a majority of members of the present Council are total abstainers. Bowen, McAllister, Davidson, Somers and Farish are all strictly "temperance." The sporting contingent figures that these five Councilmen are not likely to look with marked favor on boxing exhibitions.

These new ordinances make a charge of \$50 a night for holding boxing matches. Today the Legislative Committee may consider the possibility of increasing this to \$250 a night, or even higher.

Clay Comes High.

Tests were yesterday made by delegates of the City Council's office of the quality of the clay on the right of way of the outfall sewer through the property of the Independent Brick Company at Inglewood. The sewer runs in a ten-acre tract belonging to the independent company, and the claim is made that it will damage the property to the extent of several thousand dollars. The tests are expected to show what the clay in the territory to be occupied by the sewer is really worth.

May Return Check.

Members of the City Council have about come to the conclusion that they do not care to get into any legal entanglements over the matter, and they are going to return to N. W. Stowell his check for \$50,000, filed with the court for advertisement of outfall sewer bids.

City Attorney Mathews has ruled that the Council would have difficulty in retaining any of the money in case Stowell failed to live up to his promises. Mr. Stowell, through his attorney, has refused to alter the terms

on which the check was presented, so that nothing remains, but to return it to the sender.

There is a division in the Council over the question of readvertisement. Some of the members are of opinion that if they made a second attempt they would get better bids, but others would say that they should accept the offers of the sectional bidders. Yesterday eight Councilmen were in the city and there was an even division, four favoring each plan. It requires five votes to reject bids and six votes to let a contract.

AT THE COURTHOUSE.
BATEMAN HAS
INSANITY BUG.HIS ATTORNEYS SAY THAT HE
CANNOT BE CONVICTED.

His Mania is for Loving Pretty Women and His Heart if Not His Arms Can Hold Them All, for He is Irresponsible in Matters of that Kind.

Hastings Thomas Jones-Bateman's bugay—at least that is now the contention of his attorneys. They aver that for a number of years past he has suffered from illness, and that his mind has been shattered. The line of cleavage was right over the bump of conjugality, and it expanded to such an extent that he married one wife after the other just because he couldn't help it.

The child is alleged to be only thirteen months old, and for more than eighteen months the father has refused and neglected to provide for his wife and baby. Mrs. Ballard resides at No. 318 East Fifteenth street, and has cared for the little one for the larger part of its small life.

TO PROTECT BABY.

A KIND-HEARTED WOMAN.

Mrs. S. A. Ballard filed a petition yesterday in the probate court asking that she be appointed guardian of an infant named Ethel R. Beavers. It is set out that the mother took her infant and abandoned the home of her husband because of his cruel treatment, and went to the home of the present petitioner. On April 26, Mrs. Beavers died.

BUGGY TIPPED OVER.

George T. Shigley has begun suit against the Pacific Electric Company to recover \$3000 in damages. The plaintiff alleges that while driving in his buggy shortly before noon on March 20 along Main street, between Sixth and Seventh streets a car collided and turned it over throwing the plaintiff to the ground and juring him.

TO LOOK DILSLEY.

Thomas Jefferson White, the adopted son of Mrs. White, has been held in a judgment entered against him on October 19, 1898, in a suit brought by James and James, the San Francisco tailors, one outfitter for less and six coats. Suit has been brought to renew the judgment, and a 10 per cent interest from the time it was granted.

CONSTRUCTION COMPANY.

The Pacific Coast Telephone Contractors Company has incorporated with a capital stock of \$100,000.

The County Clerk has found it necessary to make the request of petitioners that they pay strict attention to all the requirements in the execution of their vouchers, so unless they are punctual in their payment they will be returned for a busy time.

ALL THOSE PENSIONERS.

JEFF FEELS
PRETTY GOOD.Disables Brother Jack and
Also Joe Kennedy.Miner Munroe Practicing Un-
der the Electric Light.A. A. U. Contests at World's
Fair—Amateur Golf.(BY DIRECT WIRE TO THE TIMES.)
SAN FRANCISCO, June 2.—[Exclusive Dispatch.] News from Harbin Springs is to the effect that Champion Jeffries is feeling so well that he has disabled both Brother Jack and Joe Kennedy. He hit Jack such a punch yesterday that he sent his brother through the window, and Jack thinks he has a broken rib. Kennedy is so sore that he could not be brought to the scratch today. Jeff admits that he may have been too rough, but says he hasn't gauged his blows yet. He promises to slug less in future. Sam Berger, the big "Frisco amateur, is at Harbin, and may put on the gloves with Jeff.

Munroe is now boxing at night, under the glare of six large arc lights. The miner says he is bound to judge distance so an electric light with a switch, so he is bound to train his eye before entering the ring. This shows that Munroe is bound to put up the best fight he knows how, and it has increased the respect of the sports for his ability.

AMATEUR GOLF TOURNEY.

TRAVIS MAKES FINE SHOWING.

(BY THE ASSOCIATED PRESS—A.M.)

LONDON, June 2.—[By Atlantic Cable.] In the fifth round of the amateur golf championship contests at Sandwich today, Walter J. Travis beat H. H. Hilton, the former British champion by 5 up and 4 to play, thus reaching the semi-final.

H. G. Hutchinson beat R. Maxwell, the present holder of the championship. This was made a splendid start, and was his first and second. Hilton was bunkered. Travis took the third. Hilton won the seventh, but thereafter Travis played grand golf, winning the next three holes. He brought the match to a tie and at the fourteenth, when he laid a full shot shot dead. In the semi-final, Travis beat Hutchinson by up and 2 to play.

E. D. Blackwell beat J. E. Ladley by 2 up and 1 to play.

Blackwell, therefore, will meet in the final.

This is the first time an American ever made any prominent showing here in a golf championship contest.

A. A. U. HANDICAP MEET.

IN MUD AND RAIN.

(BY THE ASSOCIATED PRESS—P.M.)

ST. LOUIS, June 2.—The first day's events of the American Amateur Union handicap meet at the Stadium were held today under most discouraging circumstances. The field was muddy and the track soft, and the first events were held in a drizzling rain.

The 550-yard handicap run: Won by F. A. Rodgers, M. H. Athletic Club, whose handicap was 44 yards; time 1:37.

One hundred yards handicap, run: Won by J. McGarvie of Bethesda, Pa., handicap six yards; time 1:1-5.

One hundred and twenty yards, handi-

cap: Won by J. H. Hill, M.A.C., Baltimore, handicap 7 yards; time 2:5-1.

One-mile run: Won by Robert Todd, N.W.A.C., New York, handicap 60 yards; time 10:04 1-5.

Two hundred twenty yards, handi-

cap: Won by J. McGowman, Bethlehem, Pa., handicap 8 yards; time 2:22 1-5.

Four-mile: Won by Dan Dillon, St. Louis University, scratch.

Running broad jump: Won by J. H. Hill, M.A.C., Baltimore, scratch, distance 22 feet.

Jumping high jump: Won by J. J. Ryan, New York, handicap 51 ins.; height 5ft. 8 ins.

Putting the shot: Won by F. C. Warming, N.S.I.L.A.C., St. Louis, handicap, 3 ft; distance 30 ft. 8 1/2 ins.

Throwing the hammer: Won by A. D. Corbett, San Francisco, scratch, distance 15 ft. 8 1/2 ins.

At Delmar Park.

ST. LOUIS, June 2.—Six furlongs: Rodgers won, Clear the Arsenals second, Lady Fonda third; time 1:23.

Four-mile: Won by The Dragoon, Edith May third; time 1:04.

LOOLOS WIN
IN THE NINTH.KNELL IS SWATTED FIERCELY
AT LAST MINUTE.Newton Pitches Fine Game, but is
Very Wild—Waldron's Running
Catches in Center Field Are the
Feature of the Performance, Which
Was Exciting.Los Angeles, 2; San Francisco, 1.
Phil Knell is about as much of a
dead one as a calf turns out to be
when you get him out in the middle
of a pasture and try to lead him.Fourteen years ago he was the crack
pitcher of the Greenhorns and Morans
of Oakland, and strange to say, Umpire
Jim McDonald was his catcher.
He was a rooster-crested bird, and
therefore out at Chutes Park he made
the old-timers think of those days on
the Haight-street grounds, when the
Pioneers and Haverleys of San Fran-
cisco, the Greenhorns and the Stock-
toners were the whole thing in the State
League.Judging from popular accounts Knell
commenced to pitch ball about the
time that Columbus first discovered the
New World. This is about as
near the correct date as any one can
arrive at, for Knell himself doesn't know
the year. Some people once thought
that no pitcher would ever try to do
anything after having seen Phil Knell,
and a lot of them thought so yesterday
for eight long, hot innings. He
mowed down the Loolos as if they had
who had practiced by shoveling dirt

"Go-get-em" Waldron, San Francisco's star center fielder.

EDITORIAL SECTION—PART II, MAIN SHEET.

BUSINESS.

The only conspicuous price movements in the New York stock market were in the specialties, mostly of the consumer class, though some of the high-grade stocks were affected. Higher cables, wet weather in the Northwest and bullish crop news caused a strong opening in wheat. July closed at \$7 1-8 (\$7 1-8).

DEMAGOGIC CANT.

The Democratic State Convention of Nebraska made W. J. Bryan chairman of the Committee on Resolutions, and he wrote the platform, which was adopted unanimously. Needless to say, it is Bryan-esque. Among its declarations are these:

“Democracy would administer the Treasury Department in behalf of the public, not as now, in the interest of Wall street.”

“Democracy would safeguard the interests of the wage earner and artisan by providing for an eight-hour day; by substituting arbitration for strikes and lock-outs, and by restoring the right of trial by jury, now suspended by government by injunction.”

There are other “planks” in the Bryan platform which are dinged with demagogic, but the above will suffice for present consideration. Bryan goes as a delegate to the St. Louis convention. He will endeavor to have the convention declare its adherence to the St. Louis platform of four years ago, and to embody some such declarations as those set forth above in its platform for the pending campaign. Failing in this purpose, Bryan will—but that is another story, not yet told.

Bryan has never been known to resist the temptation to “play to the galleries.” He knows well enough, and every intelligent man knows well enough, that the Treasury Department is not administered in the interest of Wall street. His phrasing is curiously designed to appeal to and inane class prejudice; to create the impression, without putting the charge into definite words, that this government is so conducted as to favor the wealthy and to discriminate against those who are not wealthy. The suggestion is insidious, base, demagogic, and therefore insincere. It is to the interest of every person in the land, whether rich or poor, that our financial system shall be so administered and maintained that every dollar of the currency shall be worth a full dollar in purchasing power. This has been done. If Bryan could have had his way, the Treasury Department would have been so administered and the coinage laws would have been so changed that we should have had dollars of unequal value and other serious evils of a fluctuating currency.

The arbitrary establishment of an eight-hour day would work injustice to a large number of industrial wage earners who prefer to work more hours in order that they may earn more money than eight hours’ work would bring. Every man has a right to work as many hours as he sees fit, and the government could not justly deprive any man of this right. If Bryan means that he would “provide for an eight-hour day” by enacting a law that every man shall receive ten hours’ pay for eight hours’ work, his declaration is tantamount to saying that he would paralyze and revolutionize the industries of the nation. In any case he is insincere, and his play to the galleries is obvious.

“Substituting arbitration for strikes and lock-outs” is a catchy phrase, and it was evidently intended to be so. But no practical plan has yet been brought forward for making the suggested substitution. Thorough enforcement of the laws and the full protection of all men’s rights under the laws would more effectively minimize the evils attending strikes and lock-outs than any of the visionary schemes of compulsory arbitration that have thus far been suggested.

Bryan’s most arrant exhibition of demagogic in the declaration for “restoring the right of trial by jury, now suspended by government by injunction.” Such tommyrot as this might have been expected from E. V. Debs or Sam Gompers, but it is inexcusable from a man who has twice been the candidate of a great party for President of the United States. Bryan is a lawyer, and he is well aware that the courts have kept well within the lines of precedent, safety and necessary authority in their dealings with the class of cases which gave rise to the phrase “government by injunction.” The offensive sense in which Bryan employs this phrase in his Nebraska platform is an unwarranted imputation against the courts and an insult to the entire judiciary.

The utterances of Bryan since his

second defeat in the race for the Presidency have amply demonstrated that the people were wise in refusing to place him in the Presidential office, for he has shown himself to be utterly unfit to occupy that position of surpassing honor and responsibility. His utterances at the present time would be of little or no consequence were it not for the fact that he is likely to be a factor of some importance in the coming Presidential campaign. It is an interesting question as to how far he will be able to commit the Democratic party to his charlatany in 1904. Other cognate questions are whether, if turned down (as he is likely to be), he will bolt the ticket; and how large a following he will take with him if he leaves the party—for the party’s good.

SET GOOD MEN.
An interesting feature of American political life just now is the increasing attention paid by citizens, outside of the professional politician class, to local politics. During the past few years a number of organizations have been formed in various cities of the United States, having for their object the guardianship of the people’s rights and the war against corruption in municipal government. One of the latest of these organizations to be formed is the “Common Good Alliance” consisting of prominent Oakland citizens. Among other things, it was proposed to have the ministers of that city preach on a certain day on the duties and responsibilities of citizenship.

An interesting address was delivered in this city by a Chicago man, a few days ago, at a meeting of the Municipal League. He told how Chicago is working out her own political salvation. The speaker, George C. Sikes, who is assistant secretary of the Municipal Voters’ League of Chicago, an organization in many respects resembling the Municipal League of Los Angeles, told how, when the organization was formed, the city government of Chicago was about as bad as it could be. The public service corporations showed a selfish disregard of the people’s interests, the directors did about as they pleased, while the saloons and gambling-houses and other resorts ran rampant. The Council was hopelessly corrupt, of sixty-eight members there being about fifty-eight who could put through almost anything they liked, in spite of protest. At first there was a strong element in favor of the organization of a new party, but when councils prevailed, and a committee of one hundred was selected, with an Executive Committee of nine. A clerical service was organized and the books of the city officers were examined for a period of several years back, and at long last, the election of a new board of candidates was examined and published.

For several years the organization met only with moderate success. In each municipal campaign a statement of each candidate for the City Council was published, with a recommendation as to whether the organization thought he should be elected or defeated. In later years, more and more success has been achieved. Instead of going back on the Council, the organization worked on it, until today, Mr. Sikes says, he believes that the City Council of Chicago is one of the best in the country. The speaker added:

“We haven’t eliminated all the old gangsters, because there are some words we can’t say. We can’t reach the men who have five of the ‘no’ in the old days stood for bad government who are still in the Council, but their influence is practically nothing. They have no places on any of the important committees. Several of the Councilmen are from the old political families. Some of the politicians whom we condemned several years ago we now endorse. We believe that this is the most practical method of accomplishing the ends we have in view.”

At last—the Afternoon Cry of Grief has discovered that City Clerk Leland means to “sign.” Sure! That official was crowded by the Journal of Grief until he gave reasons for his attitude and for the faith that is inside of him; and those reasons contain no aid or comfort for the disappointed and unhappy one. Hence the Cry of Grief continues to cry. Mr. Leland says that he had been given authority to award the printing contract, but he would not have given the job to the Express. Of course not! That small, mad, censorious, duke, marquis, etc., will warmly welcome a “yellow peril” in the shape of an American heiress well supplied with double eagles.

The Columbus Dispatch says, “Woman the problem of the double-decker trolley car will be solved.” The solution of the double-decker is ancient history. It has long since been relegated to New Orleans, Egypt and the junkshop.

Whenever Speaker Cannon thinks of his job as chairman of the Illinois Republican State Convention he wonders whatever could have induced him to flee from the green fields and quiet pastures of the Vice-Presidency.

An item is going the rounds of California newspapers announcing that the Pike shows at the World’s Fair are all pure, wholesome and moral. Such an announcement may imperil the success of the shows.

The deeply-disillusioned and highly-prideful Express is now engaged in furiously yet feebly laboring the Municipal League, not taking up the special defense of the disappo-

tioned twilight bidder for the city printing. Who’s mister? Have private orders been given by the armed dictator to the League, and have those orders been impiously disobeyed, gun

or Councilman in regard to the tariff, or the proper ratio between silver and gold, or in other questions that belong exclusively in the field of national politics. Just as long as the schemers can succeed in dividing up the good people of the city into opposing camps along party lines, just so long will they be able to step into the breach and carry off the bootle. Even the carnivorous animals of the forest, during a fire, cease their attacks upon the defenseless creatures that flee with them, side by side. Surely, full-grown American citizens should have at least as much sense, and stop fighting each other, while burglars are attempting to ransack the house.

So much having been granted, the next thing is to organize, for no movement, whether political, or social, or military, or of any other kind, can hope for permanent success, except through thorough organization. Organization is vital to the achievement of victory. There should be a good governing club in each voting precinct of the city. These should be affiliated with a central organization in each ward, and these nine organizations, in turn, should report to a central body—to a body like the Citizens’ Alliance, for instance—or to a new body, to be created. Such organizations should not be merely ephemeral concerns, just for the campaign, but should be permanent, collecting regular dues, and carefully watching over the interests of the people. At least once a month there should be a meeting of the ward associations, and, if possible, a weekly meeting of the ward clubs. The secretaries of the ward organizations might be salaried men, devoting their whole time to the work.

In this way a vast amount of good may be accomplished, and at a very small expenditure of time and money, so far as each individual citizen is concerned. Instead of attempting to put a separate ticket in the field, it would, undoubtedly, be wiser for the organization to serve notice on each of the parties that it would recommend the support of whichever was considered the best man for each office, and in case that no one of the candidates for a certain office should be considered worthy of support, then another name would be put before the voters, as the choice of the association.

One of the most important questions to be considered is the securing of a high class of men—men who are both capable and honest—to fill the responsible positions of Councilman and Mayor. As lawmakers for a community representing an assessed valuation of about a hundred millions of dollars, we require a class of men capable of properly conducting a great public business as well as their own private business. Sometimes it has been with us too much of a choice between two evils—King Log and King Stork. Let us endeavor to establish a high standard—to work for high municipal ideals—to achieve the best possible results in this direction. For the office of Mayor there should be no great difficulty in finding men who would appreciate the honor of presiding for two years over a city like this, and coming in close contact with so many distinguished people as are likely to visit Los Angeles during that period.

To acceptably hold such a position requires a man of considerable means, who has retired from business, or has private interests that demand only a small part of his time. He should be, furthermore, a broad-minded man of affairs, with much executive ability, culture and a good address.

As to the Councilmen, that is not so easy a question to solve. As The Times has said, \$100 a month is either far too little or altogether too much as pay for a Councilman. In order to properly perform his duties in committee rooms, as well as in the Council chamber, and in taking note of what transpires in his ward, the greater part of the time of a Councilman should be taken up. No capable business man could afford to give the greater part of his time for \$100 a month. On the other hand, if such men as are suggested for Mayor could be secured as candidates for the Council in each ward, the salary would be of little importance to them.

Undoubtedly, the power of good of the Council would be greatly increased if a certain number of Councilmen could be elected at large. This is a reform idea that should be kept in view, notwithstanding that it failed of adoption when it was up.

Los Angeles is rapidly becoming a large city. We are now in the formative stage, like a big boy that is beginning to raise a mustache. It is high time for the good citizens of Los Angeles to consider seriously whether this, the home of our adoption, is to be made a model municipality among the cities of the United States, or is to be permitted to follow in the wake of those cities where municipal inefficiency and incompetency reign.

Our publication of reports of candidates for office in four instances in suits for libel before the printing of the league, but not a single one of the suits has ever come to trial. Candidates who have brought such suits have done so in the heat of the campaign, and our usual policy has been to invite the complainants to come to us for the clearing of the campaign. The President of our league “wore a million, so the League should be considered responsible in the event of a libel suit being decided against it.

“We haven’t eliminated all the old gangsters, because there are some words we can’t say. We can’t reach the men who have five of the ‘no’ in the old days stood for bad government who are still in the Council, but their influence is practically nothing. They have no places on any of the important committees. Several of the Councilmen are from the old political families. Some of the politicians whom we condemned several years ago we now endorse. We believe that this is the most practical method of accomplishing the ends we have in view.”

At last—the Afternoon Cry of Grief has discovered that City Clerk Leland means to “sign.” Sure! That official was crowded by the Journal of Grief until he gave reasons for his attitude and for the faith that is inside of him; and those reasons contain no aid or comfort for the disappointed and unhappy one. Hence the Cry of Grief continues to cry. Mr. Leland says that he had been given authority to award the printing contract, but he would not have given the job to the Express. Of course not! That small, mad, censorious, duke, marquis, etc., will warmly welcome a “yellow peril” in the shape of an American heiress well supplied with double eagles.

The Columbus Dispatch says, “Woman the problem of the double-decker trolley car will be solved.” The solution of the double-decker is ancient history. It has long since been relegated to New Orleans, Egypt and the junkshop.

tioned twilight bidder for the city printing. Who’s mister? Have private orders been given by the armed dictator to the League, and have those orders been impiously disobeyed, gun

FOR PURE GRAFT COMMEND US TO THIS.

But how else could the “organizers” live.

includes a majority of people—to also boycott the telephone company. The Kansas City Journal rightly takes the public side of the case and calls upon the druggists’ association to rescind its order. There is only one side to questions of this character, and that is the right side—the rights of the public.

Mikado for war purposes. Perhaps fortunately for the Mikado, the money was deposited in a bank before the merchant.

It is understood that Uncle Joe Cannon has instructed the sergeant-at-arms to inform any Vice-Presidential boom which may come drifting into Springfield, that this is his busy day.

Kansas City, while not praying for a repetition of last spring’s floods, is nevertheless praying that if they must come they will finish the job this year and wreck the union depot completely.

A business man of Baltimore has been fined \$100 for kissing a pretty girl. It strikes us that Baltimoreans should forego these little luxuries until the burned district has been rebuilt.

It transpires that the deputy formerly in the County Assessor’s office, who insisted that he is an embassador, notwithstanding police incredulity, knew just what he was talking about.

Just because Gen. Miles does not thrust his lightning-rod high into the air and wave it frantically, it does not follow that the name is not duly and properly projected into the auras.

The levying of an assessment of 25 cents a day on union carpenters for a “strike fund” suggests the thought that the bosses must want to take cottage at the seashore for the summer.

It is confidently believed that about the time Uncle Sam points one of his thirty-two-inch guns toward Morocco, there will come a repetition of the Davy Crockett’s coon incident.

If Judge Parker remains silent another month,” remarks the Boston Globe, “he will have done his stunt.” But upon what does the esteemed Globe base this element of doubt?

But if New York welcomes Uncle Lige Dowie according to precedent in his case, only making it a bit stronger, he may conclude that Australia isn’t such a bad place, after all.

Colombia is improving. Awhile ago she announced her determination to wipe Uncle Sam off the map. Now she is walking and refuses to receive Uncle Sam’s representative. By and by she will come into the reservation all right.

However, every impious foreign court, duke, marquis, etc., will warmly welcome a “yellow peril” in the shape of an American heiress well supplied with double eagles.

The flashing of the Tammany knife amid Democracy’s gathering gloom does not appear to be frightening the Parkertons to any appreciable extent.

“Lige Dowie is a good man,” says the Times. “He is a good man, and he is a good man.”

“Lige Dowie is a good man,” says the Times. “He is a good man, and he is a good man.”

But perhaps the Locos, having heard that there is a bottom, are merely Missourians and intend to see themselves.

The discovery that the common red ant is a remedy for boll weevil may tend to shorten the raspberry-pie industry.

A New York broker has refused to testify against the chief gambler of that city. Professional courtesy, possibly?

Daylight burglars are cautioned to look carefully and make sure there is no woman with a hoe around the premises.

The Whitford-Driscoll case appears to indicate that a musical education sometimes has its distinct advantages.

John Sharp Williams says politics is just wait until he runs up against that “psychological moment” at St. Louis, with Willis Bryan at the bat. He will think politics is a Kansas cyclone.

A Japanese merchant of New York arrived in Chicago recently with more than a million dollars in cash in his wallet, which he intends to give to the Hoa G. C. of Asia.

Most good fishermen are idealists, but this will hardly change Mr. Bry-

THE WOMAN AND THE RIB.

WOMAN AND THE RIB.
... gave his rib
To make a woman's shape;
Thus the story's writ
There is no escape!

... an arctic whale,
Virtues of the blane,
... gives his rib
For to make the same!

... not for man.
... gets his ribbit back;
... for the poor old whale,
... black, my friends, black!

FRIDAY, JUNE 3, 1904.

ALTADENA'S EXPERIMENT.

Nature's Lover Plants Garden of Rarities.

Roster of New Wonders from Far-off Climes.

Seedless Guavas and Other Tropical Fruits.

Nestling under the foothills at Altadena there is a ranch that might be called an experimental station, for it is here that the owner, W. Scott Way, is giving many growing things, foreign and domestic, a trial.

Mr. Way is a lover of nature in all its forms, and takes much interest in all that pertains to outdoor life. He is secretary of the Audubon Society of Pasadena and secretary of the Humane Society of the same place. A dove with a broken wing and a handful of homeless, motherless nestlings were the object of much solicitude on the May day that the writer was privileged to see the beauties of his garden.

The ranch is located auspiciously, as it is almost above the frost line, being 1450 feet above sea level. Here the owner has added to the many examples of worthlessness turned to wealth, of desert plants blossoming like the rose. A mile and a half away the mountains lift their sheltering peaks, and four miles down the valley is Pasadena, while over all the landscape on this May day is a shimmering veil, clothing the valley with the mellow golden light of the afternoon. Here in this favored spot, in the midst of a world of wonders is the carefully planned garden. Here the soft wind blows where it listeth, carrying the fragrance of rare flowers to the Hesperian groves, which in return are lavishly generous with the more fragrant perfume of the exotic blossoms.

Along the winding walks are Mr. Way's treasures. There are plants with fruit, plants with thorns, hairy plants, those that grow in the shady places and those that rob the sun of its light. There are water lilies, white, purple, cream and pink. Fair and fragrant are the roses, and the dainty heads are softly brushed by the sunbeams while their feet are kissed by the waters of the artificial reservoirs where many gold fish find a home. There are trees and palms from far countries, flowers from many a climate. Mr. Way is more than making two blades of grass grow where one grew before, therefore he is a benefactor to his fellow; a kindly one who is willing to show his flowers and explain their peculiar merits.

RARE ONES HIS PRIDE.
Here under latticed shelter is a handsome New Zealand treefern, Dicksonia Antartica, with a fine selection of native ferns around its base. Overhead droops the great boughs of the Florida moss. Growing luxuriantly up the sides and over the top of the arbor is a wonderful passion flower, Jasminum Melissans, with blue, yellow, pink blossoms and bunches of delicious fruits. The passion flower is delicious to the taste, but like the pomegranate, is so full of seeds that to eat it is only, as Mark Twain says of the watermelon, "playing with the mouth." Alpinia Nutans, the ginger plant, is a beautiful flowering plant with blossoms like pineapples. From South America are many species of the cocoa palm, some rare, others common. A parasitic Philodendron is taught to grow and thrive well with its roots in the ground instead of drawing it from the bark of trees. It is a fruit like a pine cone, the flavor of pineapple and banana. Mr. Way is giving these plants special attention as the fruit is valuable. The Patagonian pokeweed tree recalls days when naughty children experimented with red pokeweed ink and pink toad poisons; "if you eat dem berries you gwine to have fits and die."

Mr. Way is proud of a very tender variety of banana, that has weathered the winter and is in good condition, also of the feathered arachnids of his Australian Elephants Garden. A special effort in the guava line is being made and it is certain that a seedless guava has at last been obtained by Señor Cabedo of Cuba. This variety and a rare one from California are two out of many of this fruit, which Mr. Way is watching. Three kinds of Caricaceas come from far-off lands, two from South Africa, one from Arabia. The fruit is like a small plum and good. Fifteen beautiful species of the guava are in a flourishing condition. This is a rapid tree, the fruit of which is said to be valuable addition to the table in the form of salad. The tree is a rapid grower.

The tomato tree or Solanum Betaceum is well known as a native of South America, where it is called "the poor man's fruit." It is used for jellies or preserves. "Heart's Choice" banana has not progressed far enough to keep the owner's family, but Mr. Way thinks it will displace the seedless guava. The banana can grow here, but doesn't feel like doing it." Here are a number of plants sent to Mr. Way by the United States government for trial. There are used in the guava for street shade, Albizia, Labbeck, a hardy moss for covering waste places, lichens and plants that cannot be irrigated are among these plants.

ROSTER OF WONDERS.
Others of this fine collection are the hardy Japanese climber, Akelia; Eugenia Mitchell, with fruit like a cherry; Peruvia lily; Australian lotus, Pritchardia; Pacific Thevetia; Nerfolio (a flower); some plants from the tropics; Germania Thunbergi, said to be the handsomest of gardenias; specimens of the giant bamboo of Japan, which grows fifty or sixty feet high and is the bamboo for building houses and bridges; a towering tree from India; Custard apple, a beautiful Swallowtail and a hardy palm (Jubaea) that will stand any amount of neglect. The Eugenia Jambolana, or rose apple of India, is very handsome and has an edible fruit. A Porto Rico pineapple is growing well and has good sweet fruit. A winter melon is growing well and is a winter melon of this fruit by the way, seem to show special interest on the part of Mr. Way, who thinks the pineapple could be grown to greater extent. (Another Altadena, is to start soon in making experiments with the pineapple and banana.)

A large Urtica, which may or more than passing attention. It is the Fijian Nettleweed and is a plant that is grown with success in the countries of the Mediterranean. The fruit has a fair market in Paris and elsewhere. It is thought by some to be a good fruit for Californians to grow. It bears fruit about the same time as a tangerine orange and is valuable for its food qualities. There are a few

of these plants at Santa Barbara and Mr. Way has two, which are about all in the State.

From South Africa is the Morea Iridies, belonging to the lovely iris family; it shares the beauty of its relations. All the world round it is up in its beautiful chalice. It is a most desirable flower. The Kai apie is also from South Africa. A small candlepin tree from China, an Eugenia from Brazil, a purple Lasiander from the tropics, from another group. From Mexico a small monkey flower, the front of which is more or less like Mimosa, from the Philippines, have been sent from Washington to Mr. Way. More coco palms from Australia and Africa and some dwarf palms from the Highlands of Mexico. Millions of new, white, lavender and scarlet, are the next in order.

OLD FAVORITES.

After all these children of the tropics it is a pleasure to see a few old-fashioned amaryllis, anenomes and the sweet "breath of heaven."

A terraced rose garden is another charming feature of this floral kingdom, its background being a collection of eighteen varieties of the eucalyptus, and leading from it the broad expanse of fields so lately painted with the flaming birds dipped in colors of the sun's own mixture. Here lady rose throws down the gauntlet to all other flowers even the poppy, pride of the State. There are no weeds on Mr. Way's place, that is if a weed is a plant out of place. Marigolds and Mexican poppies are cultivated carefully. In trees have tongues and stones preach sermons, then what do all these strange transplanted dwellers of the tropics say but the words: "Care for me, nurture me, and it will be broad cast on the water that after many days will return to be the portion of your children."

To one who understands the significance of these experiments and who begins to study the laws of the floral kingdom, there will come an enthusiasm to the study of the flora and fauna and fragrance of the friends of the garden, field and forest, and the study will be full of charm. Certainly on the lovely Altadena ranch there are ideal conditions to pursue this study.

ESCAPED HANCUFFED.
Prisoner Charged With Felony Gave Officer the Slip While Taken from Train.

Despite the fact that he was handcuffed, Alphonso Bustos, a prisoner who was held to answer on a felony charge at Chatsworth Park yesterday, escaped last night at River Station from Constable A. F. Ahlstrom, who was taking him to the County Jail to await the action of the Superior Court.

Bustos is only 17 years of age and is charged with grand larceny. He was unable to give the bond exacted of him after his examining trial before a justice of the peace at Chatsworth Park, and was therefore committed to jail. Constable Ahlstrom, a prisoner he had taken all necessary precautions and when the train which brought them to the city arrived at River Station, the officer permitted his prisoner to step off the car ahead of him. As soon as Bustos reached the ground he continued going and proved himself a better sprinter than the officer. He made good his escape and the officer went to police headquarters and reported the escape, requesting the officers to assist him in the effort to recapture the fugitive. Handcuffed as he is, Bustos may have some difficulty in escaping arrest unless he has friends here who are willing to assist him in removing the handcuffs.

The fugitive is about 5 feet 6 or 7 inches in height; weighs about 145 pounds; is of dark complexion; has dark hair and a prominent nose. He was attired in a dark coat, fine striped brown trousers, wore no vest and had on a black hat.

A Favorite Remedy for Babies.

Its pleasant taste and properties have given it a wide popularity. It is favorite with the mothers of small children. It quickly eases the coughs and colds and prevents any danger of pneumonia.

J. W. ROBINSON CO.
BOSTON DRY GOODS STORE

239 South Broadway, Opposite City Hall, Los Angeles.

In this special sale of parasols for today will be found two lots. The price on either assortment is in some cases even less than one-third the usual selling price.

\$5.00 to \$8.00 Parasols \$2.75
\$2.50 to \$5.00 Parasols \$1.50

These parasols are house samples which were used to show the new patterns for the coming season. They are perfect in every detail and are made of the very best taffeta silk. The styles are the newest and most up-to-date and are in both plain colors and fancy effects. There are scarcely any two alike.

We have quite a large assortment of these parasols, about 300 of them in all, and while they last you may choose from the \$5.00 to \$8.00 qualities at \$2.75, and from the \$2.50 to \$5.00 qualities at \$1.50.

They will be placed on sale this morning at 8 o'clock.

Our June Clearance Sale

Sunday's paper will give the full details of our great June Muslin Underwear sale, our black dress goods sale, and numerous other important items for Monday. Our June Clearance Sale will begin Monday.

JUNE WEDDINGS

Again June is here and every preparation is being made for the event that promises so much for the participants. It is also time to think what would be an appropriate token to send. Never before have we had such a selection of rich and exclusive novelties for these occasions and never have the selections been so popularly priced, so that every one can afford to buy a more satisfactory gift.

Annual June Sale
of Fine Undermuslins

Bigger, better, broader, than in any former year. Assortments more satisfying; varieties and values that appeal to women who demand the best, at right prices.

Many of the garments get first showing this morning; while the major part of the stock hasn't been in the house over ten days.

Window displays tell part of the story; but you must watch the papers from day to day to keep fully posted.

25c ribbons
15c

Strange thing about it is, they're new—right in the height of their popularity—the most popular ribbons for hat trimmings, neckwear and girdles we've been able to offer at 25c a yard. Today—and today only—they're fifteen cents.

4-inch satin Florentine ribbons (absolutely all silk) in nine of the most desirable colorings—pink, lilac, madder, corn, gray, cardinal, reseda, navy and royal blues.

Tomorrow they go back to 25c a yard.

Linen Mesh and "Merle" Underwear for Women.

THE OIL INDUSTRY. LOCAL MARKET IS AGITATED.

FREIGHT RATE CUT CAUSES MUCH SPECULATION.

Standard Official Denies that Company Intends Building Pipe Line from Redondo—Prices Remain Unchanged—Small Quantity Now in Storage.

The swooping 25 per cent. cut of the rate on crude oil from Kern River to Los Angeles, is agitating local oil circles to a marked degree. The producers in the Los Angeles, Whittier and Fullerton fields do not like the new order of things, but they have about made up their minds to grin and bear it.

The reduction of the freight tariff has not caused a heavy decline in the price of fuel oil, as was anticipated by some, but lower prices for the future are looked for. When such conditions prevail they will be directly attributable to the reduction in freight rates.

The entire output of the local field is cast for at present and probably will be during the remainder of the year, and at good prices—but when the contracts now in existence expire, prices will doubtless be made at a lower figure.

IS THE STANDARD IN IT?

Rumors have been persistently circulated that the present local conditions have been brought about by the Standard Oil Company, and that just one more step has been made in the direction of the ultimate control of the Southern California oil fields by this corporation.

Reports were in circulation yesterday to the effect that the Standard company intends to build a pipe line from Redondo to Los Angeles and pump oil from tidewater to this city, which will be distributed at a greatly reduced rate.

When asked about the new venture, Assistant Manager Venker said: "That is news to me. I know nothing of a pipe line, and if one was contemplated by our company, I think I would know something of it."

Continuing, Mr. Venker said: "We are greatly interested in the best in the local fuel oil situation. We have never tried to control it, and do not intend to do so."

Notwithstanding the repudiation of the pipe line scheme from Redondo by Standard oil officials, it is claimed by well-informed local dealers that such a step was contemplated, and in anticipation of this contingency the operators in the Kern River field, headed by the Associated Oil Company, made a concerted effort for a lower freight rate to Los Angeles, and finally succeeded in getting it.

After consulting the experts of the Kern River men in the Los Angeles case, the railroad people now have other troubles. Arizona consumers want a lower rate, and the Kern River producers want an outlet for the enormous quantity of oil now stored in the field, and the railroads are petitioned to make a reduced rate into the Territory.

SMALL AMOUNT STORED.

The amount of oil in storage in the city is again at a low ebb, although producers in the Whittier and Fullerton fields are holding back a number of barrels. The Oil Transportation and Storage Company has less than 50,000 barrels in storage and the other companies in this line of business also have depleted stocks.

Some oil is in storage, as necessary, just now, in order to supply the local demand, and the lower grade of the Whittier field is being used for this purpose.

FLASHES FROM THE WIRES

A treaty of arbitration has been signed between Spain and Portugal, it conforms with article 19, of The Hague Convention.

At about 6 a.m. in an explosion at the plant of the B. F. Goodrich Company today, half a dozen persons were injured, some seriously.

Reports today to the General Synod of the Reformed Church show that the trial for the r-vision of the liturgy has failed.

The Missouri Supreme Court today decided that the State Board of Arbitration had no power to punish witness for contempt who refuse to testify before it.

James F. Crouse, whose home is believed to be in Providence, R. I., fell from Colorado and Southern train near Colorado Springs and sustained fatal injuries.

Emil Hera of Cleveland, O., a naturalized American citizen, has been expelled from Brazil, according to a New York Times dispatch from Berlin. No details are given.

At London, at a meeting of the Lord Mayor and Corporation today, it was decided to confer the freedom of the city on Lord Curzon of Kedleston, in recognition of his ability and zeal he had displayed as a member of India.

C. T. Taylor, general manager of the Armour packing-house, interests in South Omaha, shot himself this afternoon. Beyond the fact that he had been suffering from nervous depression, no cause is known.

Fires have been complicated by the committee on arrangements for the ninth annual convention of the National Association of Credit Men, at New York. The meeting will continue June 2 and sessions will continue three days. More than 500 delegates are expected to attend.

Recorder Goff of New York, sentenced John Crane and Arthur Nagle to nine years and six months in prison for stealing thirty cents. The men are ex-convicts, and were found guilty of breaking up a safe in a New York hotel. The fact that the pair, who had been snatched, was nearly empty did not lessen their crime in the eyes of the court.

At Naples, Prof. Schron, discoverer of the new microbe, which causes pustulosis, a microbe quite different from that causing tuberculosis. Prof. Schron affirms that this discovery explains why Dr. Koch's serum not only did not cure phthisis but aggravated it.

At Los Angeles, a suit for copyright was filed in the Circuit Court yesterday, against the Colonial Securities Company of St. Louis, by three of the bondholders, who allege that the company is insolvent, with \$1,000,000 liabilities and \$250,000 assets.

At Newport, R. I., the second day's government trial of the submarine here, Fulton, yesterday was devoted to firing torpedoes while submerged and just awash. Capt. Train, president of the Trial Board, stated that the tests were satisfactory.

Near Monterey, Mex., W. F. Clark, a well-known mining and agricultural engineer, on a trail leading from Minas Nuevas to Lafama, Wednesday, and fell a distance of fully 2000 feet, being instantly killed.

Frank Sevier, a rejected suitor, shot himself and Miss Estelle Roney, daughter of the assistant superintendent of

tendent of the South Chicago Shipyards. The girl fell unconscious in the street and was hurried into the hospital, inflicting a fatal wound, Miss Roney will recover.

Arthur A. Eddy of Los Angeles, convicted of the murder of Daniel Mitchell of Cincinnati, which occurred in El Paso, April 1, has been given a sentence of nine years. Yesterday Eddy accused Mitchell of estranging the affection of a woman and followed him to El Paso, from California, to recover, he said, \$600 which the woman is said to have.

An automobile containing Signor Liberati, the concert virtuoso, who is filling an engagement at a Kansas City park, with H. Drennen, M. E. Otis and Victor W. Flower, prominent business men, and Jacques L. Morgan, executive of the Morgan Motor Car company, was badly wrecked and all the occupants cut and bruised. None was badly hurt.

At Chicago, destruction of the refuse of oil by cremation has been urged at the meeting of American and English engineers. "It is possible to burn green, crude refuse without any perceptible odor," said E. C. Dennell, a London engineer. "You must not put the refuse in the earth as it makes the ground stink. You must burn it in the sea, for it kills the fish."

Two military prisoners at Fort Snelling made an outright attempt to escape, today, and one of them, Wissch, was shot dead. Wissch, who has seven wives, was convicted of murder of his wife, and was sentenced to the field artillery. Along with Private Reilly, he is awaiting trial for desertion, he was employed in cleaning up the grounds, under charge of Private Kennedy. Suddenly the prisoners attacked Kennedy and started in his heating oil. Then they broke for liberty. Kennedy shot and killed Wissch. Kelley was recaptured unharmed.

War Secretary Arnold Forster, answering a question in the House of Commons yesterday, said the government had no intention of returning to Parliament the introduction of a system of conscription, as recommended by the Royal Commission, on the veterans and militia forces.

Hundreds of prospectors and miners have taken locations within the past few days on Nipomo Mountain, in the Cripple Creek district, where a gold-bearing drift fifteen feet wide has been discovered. Samples of ore from the drift which have been assayed run from \$12 to \$100 per ton in gold. It is estimated that the camp can be staked in the new district.

Baron Kenzai Kaneko, a former Cabinet Minister of Japan, received the invitation that country toward the principle of arbitration, holding that Japan had constantly stood for peace
